The scheme SABLA gives adolescent girls access to nutrition, healthcare, education and training.

The strength of a woman is not measured by the impact that all her hardships in life have had on her; but the strength of a woman is measured by the extent of her refusal to allow those hardships to dictate her and who she becomes

## A Childlike Approach To Life

Direction: Swami Sukhobhanda

Most of us are caught in the trivial parts of life and miss seeing the whole. Without losing our vision, we want to see the vastness of sky. Thus, we want to see the vastness of sky. Thus, we want to see the vastness of sky. Thus, we want to see the vastness of sky.

Life is a great mystery. It is vast and cannot be limited by shallow thinking. We have to learn to observe life as it is, not as we want it to be.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

**THE SPEAKING TREE**

What is a childlike perception? It is pure sensitivity and not sentimentalism. To be sentimental is to react to the past. A child is not sentimental. Let us enter into the state of childlike perception and experience the delight of the now. Then you will transform perception and fill it with sensitivity. That is the path of being sensitive in your perception. You will build a better rapport with people. You will flourish. You will flourish. You will flourish.

## The Many Forms Of Love

Direction: Swami Sukhobhanda

There is little debate on the instrumentality of love and childlike perception. In the world of love, the instrumentality of love is not a problem. It is a fact. It is a fact. It is a fact.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.

A child sees a flower. The flower is not a flower. The flower is not a flower. The flower is not a flower.

One has to look how to see. One has to look how to see. One has to look how to see.
