FOREWORD

“*Trust* is a function of two things: *character* and *competence*. Character includes your *integrity*, your *motive* and your intent with people. Competence includes your capabilities, your skills, and your track record. Both are vital.” - *Stephen Covey*.

It has been very heartening to see the character & competence showcased by the participants of this 5-day workshop on **Competency-based Learning & Assessment** which was organised at **KVS, ZIET, Gwalior** from **18th September 2023 to 22nd September 2023**.

It was a stage for sharing not only innovative ideas and best practices but valuable resources and expertise also. This **Resource Manual** mirrors the hard work, devotion and efficiency of the participants. This collaborative exercise underscores the utmost significance of working in tandem with others to reduce efforts and optimise the fruits. This **Manual** provides a peek into the workshop and is a reservoir of reflections & resources.

“**Wisdom is realizing that one resource was never meant to accomplish just one thing.**” This quotation by Craig D. Lounsbrough underlines the importance of tapping a resource and maximizing the fruits we can harvest from a resource. I have a firm belief that this five-day Workshop on Competency-based Learning & Assessment has equipped all the participants with new skills and added to their ammunition of resources. This resource manual reflects the resurgence of the participants. It is a testimony of their re-awakening and revitalization. I take this opportunity to acknowledge the strenuous and consistent efforts of the Resource people, and the Editorial team who under the sanguine guidance of our course director, Dr. Anurag Yadav, have toiled hard to make this mammoth task a possibility.

I am sure that the students and teachers across the country will be benefitted by the support material and metamorphize their potential into performance.

From the Director's Desk...

If a child can't learn the way we teach, maybe we should teach the way they learn.

– Ignacio Estrada

The Institute had the pleasure of the company of illustrious Post Graduate Teachers (English) as participants and resource persons from the five feeder regions for the 5 Day Workshop on Competency Based Learning and Assessment.

As every learner's ability and progress in learning is unique, not all learners progress at the same pace. The faculty and students share ownership of the learning outcomes. The students assume responsibility for their learning, and the faculty assumes responsibility for providing appropriate resources for that learning. This is what NEP 2020 and NCF 2023 is reiterating. The stress is on student-centered and competency based learning. Teachers will adapt themselves to the learning pace of students.

The competencies displayed by all the participants during the workshop were exemplary. I wish them the best in their future endeavour and sincerely hope that they become the torchbearers in bringing about change in the teaching learning process.

Competency Based Learning is the need of the hour. The sincere efforts put in by the teachers will go a long way in making the children future ready and equipped to face the challenges of the 21st century.

Dr. ANURAG YADAV

Resource Person's Column

The 5-Day workshop for PGT ENGLISH at ZIET GWALIOR on Competency Based Learning and Assessment was a step ahead moving towards the implementation of NEP 2020 in school education. The subjects dealt with during the sessions took the participants into a realm different from traditional teaching learning system and surely they will find themselves equipped to accept the challenges posed by the 21st century learners waiting to soar high enriched with English language competencies and to compete at the global level. The dormancy that had crept in educators' minds and spirits post-Covid times has been released and the message is that focus of all class activities should be achievement of TLOs and mastering competencies in a learner centered class.

I expect and sincerely hope the teachers efficiently use the skills learnt here and pass it on to their students successfully.

It gives me immense pleasure to be a part of Five -Day Workshop on 'Competency Based Learning & Assessment in English for PGT English. KVS is known for its innovative & experimenting qualities in ensuring Child -centric learning approach through classroom teaching learning process. To strengthen the tools & techniques of education, regular trainings & workshops are being organized by the KVS.

This Workshop is going to strengthen our teachers with the tools & techniques of Competency Based Learning & Assessment in English. CBL & A in the light of NEP -2020 & NCF-2023, the Framework, Activities & competencies needed to develop MCQs, Case Study questions, Developing Reading Competency, Learning Outcomes for 21st Century Skills & Global Competencies through CBL, Competency

Based Learning using Art Integrated, Sports Integrated & Story Telling Based Pedagogies, Development of Parameters & Rubrics for Assessment, Lesson Planning Format & Practices for CBL & A Class, Discussion on the latest CBSE Exam Pattern, Assessment tools & techniques in CBL& A, Use of ICT for CBL & A, Developing Writing Competencies etc. are some key features of this

Workshop. Participants are going to learn & prepare Chapter wise Learning Objectives & Competency Skill sets for Class XI & XII English Core.

This workshop will provide a perfect platform to our teachers & enable them to discuss & share knowledge related to Competency Based Learning & Assessment in English.

With best wishes

A Word from the Editor

“Our mission is to be the resource that helps achieve the mission. However, if we make ourselves the mission, we will be neither mission nor resource.”

These gems of words by **Craig D. Lounsbrough** underline the significance of selfless resource sharing. The participants of this workshop were undoubtedly oozing with creativity, originality and 'selflessness'. They have reflected amply & shared resources with largesse. This manual is a reservoir of all the reflections & resources of our talented teachers.

Arthur Polotnik very rightly said, " You write to communicate to the hearts and minds of others, what is burning inside you. And we edit to let the fire show through the smoke" I hope our editorial team, duly supported by a host of other people under the sanguine advice of our reverend course Director, Dr. Anurag Yadav, has been successful in diffusing the clouds of smoke and showing the fire which would ignite the minds of the readers.

It gives me tremendous satisfaction and unparalleled joy to hand this issue of 'Resurgence' over to our enthusiastic readers.

Happy Reading!
